- Western Scholarship of Distinction (\$3,500)
- Health Innovation Award (DMSA x KPMG Case Competition)
- Dean's Honour List
- Top Student Recognition, Physics I (99%) & Physics II (103%)

Education

Master of Medical Sciences (MSc Candidate) **2026–2027**
Schulich School of Medicine & Dentistry, Western University, London, Ontario

Honours Specialization in Health Sciences, BHSc **2022–2026**
Western University, London, Ontario

- Final two-year GPA: 3.96/4.0
- Activities: Executive Director, Western Student Research Conference; Executive Director, Health Occupations Students of America (HOSA); Vice President, Thaqaalayn Muslim Association; Vice President, Butterfly Effect UWO

Projects

Informed Consent & Decision-Making for Indigenous Peoples Living with Disabilities –
Undergraduate Thesis, Western University, Sep–Dec 2025
Designed and led a scoping review on culturally grounded approaches to informed consent for Indigenous peoples with disabilities.

Quality Improvement Framework to Improve Developmental Service Navigation in Down Syndrome Care – *SickKids SSuRe Program, May–Aug 2025*
Led a QI study applying PDSA cycles to improve Down syndrome resource guides and regional service accuracy, evaluating materials via PEMAT and caregiver input.
Khan, A. (2025). Applying a quality improvement framework to improve developmental service navigation in Down syndrome care [Poster presentation]. SSuRe Summer Research Symposium, Toronto, ON.

AI-Powered Wearable Sensors for Fall Detection in Older Adults – *STEM Fellowship, May–Aug 2025*
Led and authored a literature review on AI-based fall detection systems
Khan, A., et al. (2025). AI-powered wearable sensors for fall detection in older adults [Poster and oral presentation]. National Inter-University Health Data & AI Inquiry Program, University of Toronto.

Practical Applications of Artificial Intelligence in Geriatric Medicine: A Scoping Review – *North York General Hospital, May 2023–Apr 2026*
Screened 1,800+ studies on AI and machine learning in geriatric care; extracted data and drafted manuscript on clinical and ethical implementation.
Khan, A. (2025). Practical applications of AI in geriatric medicine: A scoping review [Poster presentation]. T-CAIREM Conference, ON.

Work Experience

Founder & President, Western Undergraduate Research Students' Association **Oct 2025 – Present**

Western University, London, Ontario

- Founded Western's first undergraduate research network, building a 900+ student community through cross-faculty mentorship

Clinical Ethics Practicum Student **Dec 2025 – Apr 2026**

London Health Sciences Centre & Western Centre for Bioethics, London, Ontario

- Observed and participated in ethics discussions involving vulnerable patient populations

AI Research Assistant **May 2023 – Apr 2026**

North York General Hospital, Toronto, Ontario

- Conducted large-scale literature screening and data extraction using Covidence, supporting evidence and manuscript synthesis
- Collaborated with Provincial Geriatrics Leadership Ontario on AI priorities in geriatric care

Summer Research Student (SSuRe Program), Division of Paediatric Medicine **May 2025 – Aug 2025**

The Hospital for Sick Children (SickKids), Toronto, Ontario

- Supported families in the Down Syndrome Clinic following a new diagnosis by improving patient materials
- Participated in outpatient clinics, aligning care with community-based supports

Clinical Assistant / Scheduling Clerk **May 2024 – Aug 2024**

Macomb Pain Management Clinic, Shelby Township, Michigan

- Assisted with patient intake and procedural support for high-profile patients and athletes

Intern, Junior Developer Assistant **Jun 2022 – Aug 2022**

FAHM Technology Partners, Richmond Hill, Ontario

- Built Power BI dashboards and backend features (Java) for Fortune 500 clients

Volunteer Experience

Indigenous Food Sovereignty Volunteer **Sep 2025 – Present**

Southwest Ontario Aboriginal Health Access Centre (SOAHAC), London, Ontario

- Advanced Indigenous health equity through weekly food box distribution to 100+ families

Clinic & Patient-Visiting Volunteer **Apr 2025 – Present**

London Health Sciences Centre, London, Ontario

- Assisted with patient navigation in orthopaedic outpatient units and provided weekly companionship in inpatient and palliative care settings

Skills: Programming, Microsoft Suite, Ethical Reasoning, Patient-Centred Communication

Training and Certifications: Unconscious Bias in Medicine, Stanford University School of Medicine
